

ANNUAL GENERAL MEETING 2026

The 56th Annual General Meeting of the Southern Electric Group will take place on Saturday 30th May 2026. The venue is Tonbridge Baptist Church (Darenth Room), Darenth Avenue, Tonbridge, Kent TN10 3HZ.

The nearest rail station is Tonbridge which has direct South Eastern services from London and Kent and a connection from Redhill linking to the wider former SR area. The walking distance is about 1½ miles or Arriva buses 218 and 219 operate at 15-minute intervals between the station and the church. Some free parking is available nearby.

As usual the meeting will commence at 14.00 and we end by 17.00 following completion of all business. The usual light refreshments will be available following formal business for which a small cash donation is requested.

This location is fully accessible with toilet facilities and easy access though not quite step-free.

We shall again offer the option to join the meeting via Zoom as per recent AGMs.

The meeting will be asked to vote on proposals by the Management Committee which **WILL FUNDAMENTALLY CHANGE THE GROUP** one way or another so we encourage all those who can do so to attend either in person (if possible) or online.

In short, and according to how members choose to vote, your membership will either be with the new SEG CIO in the future at a rate they determine and with benefits they offer or the membership group will be wound up and members will have no ongoing benefits but may still choose to join the SEG CIO individually.

Full statements will be made at the meeting explaining the background and potential outcomes before any decision is made.

Rick Squirrell – Chairman and General Secretary
